in many circumstances. Overexposure to X-rays is a critical
health care problem in the United States today and we
shouldn't allow this kind of advertising to direct people
to choose one health care practitioner over another. It is
inappropriate and it shouldn't be condoned. Now if you
read the amendment, it is very simple. It prohibits those

Mr. President, the next amendment I have is offered by
Senator DeCamp.

SENATOR DeCAMP: My amendment basically...I would prefer

can't get together because I think they are a lot more
